### REASON FOR ALLOWANCE

1. Claims 1,3-18,20-34 are allowed. Claims 2,19 have been cancelled.
2. Examiner had indicated objected claims 2-17 and 19-34, after amended independent claims 1 and 18; the following is an examiner's statement of reason for allowance.
3. The prior art fails to teach or suggest a method for generating an association with regard to information, which is arranged on at least one support provided with an absolute position coding pattern, by means of a handheld device arranged to sense the absolute position coding pattern, having passing the handheld device over the support for sensing the absolute position coding pattern; sensing when the handheld device passes over a discontinuity in the absolute position coding pattern and interpreting the discontinuity as an association regarding the information present on the support, wherein the support comprises a first area in which the absolute position coding pattern codes continuous first coordinates, and that the information is provided on the first area and is connected to the first coordinates and the support comprises a second area provided with an absolute position coding pattern which codes second coordinates which are discontinuous with the first coordinates; passing the handheld device in a single movement from one area to the other area, for sensing discontinuity as claimed in claim 1.

Independent claim 18, which is a system, claim having all the above steps, allowed for the same reason as above stated.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
